Ladies and Gentlemen,

on March 21th, 2012 EuroWindowor will host its conference on *Climate Protection with new Windows*.

EuroWindowor is an umbrella organization of the European associations of fenestration and door sector FAECF, FEMIB, EPW and UEMV for the three frame materials metal, wood and plastic and the infill material glass.

The conference offers a unique opportunity to get information on the latest legal, technical and normative developments of Energy efficiency in the European window and facade market.

We are looking forward to meeting you in March 2012 in combination with fensterbau/frontale in Nuremberg.

The language of the conference is English and German by simultaneous translation.
